

Team contribution Report

Luke Peddle:

- Admin class
- Set up the database
- Authentication and registry
- Buyer menu
- Seller menu
- Buyer DAO and Services
- Seller DAO and Services

Micheal Walsh:

- Seller and User classes
- Admin menu

Samantha Thorne:

- Product and Buyer classes
- Some Seller menu
- Product DAO and Services
- All documentation

All three of us met to do the class and er diagrams

Challenges:

The only challenge that we faced was a big one. For some reason bcrypt wasn't working with Samantha's computer. She met with Jordan to fix it and still couldn't. Samantha couldn't test or run or sometimes merge her code. This means Luke had to step up to get some extra things done, and Samantha made up for it with documentation. Everyone still did contribute and we made a good team despite this challenge
